WHY IS MICROBAN® IMPORTANT TO OUR UTENSILS AND YOU?

Microban® formula inhibits the growth and reproduction of harmful bacteria, mold and mildew which can cause illness, odor, and staining. It's a silver-based solution that is infused within vinyl handles to provide built-in antimicrobial protection against contamination from human contact and food residues. Microban® is safe for food contact and will not wash or wear away from use or cleaning.

It is proven to keep serving utensils cleaner between washings. This antimicrobial

formula is USA Environmental Protection Agency (EPA) registered and EU Biocidal Products Regulation (BPR) certified.

One-piece design:
15cm & 23cm

V-hinge design:
24cm, 30.5cm & 41.5cm
