

The classic carpet cleaner made even better.:

The new Puzzi 10/1 and 10/2 from Kärcher.

Kärcher's new Puzzi 10/1 and 10/2 provide new levels of convenience and ease of use, thanks to a host of design features all intended to make carpet and upholstery cleaning more productive and therefore quicker and at lower cost. Using the proven spray-extraction method but with the added advantage of Kärcher's revolutionary flexible suction tool, the 10/1 and 10/2 deep clean carpets and leave only minimal residual moisture. This means that carpets and upholstery are left almost completely dry, reducing the risk of resoiling and enabling cleaned areas to be used again very quickly.

Convenient storage

The new storage systems enable the power cable and upholstery tool to be conveniently stored on the machine, reducing the risk of damage or loss.

Ease of use

The all-new handle can be adjusted to suit any operator height without tools, and features two clear windows to monitor cleaning progress. The new rotating plastic lip ensures optimum contact is made with the ground regardless of the angle of the floor tool, dramatically improving ease of use and cleaning results. The optional PW 30/1 powered brush head further increases productivity (Puzzi 10/2 only).

New upholstery tool

The new upholstery tool is designed to be very tough but light weight. The tool can be stored on the back of the machine for quick access. Standard on Puzzi 10/1, optional on Puzzi 10/2.

Extra benefits of Puzzi 10/2

The Puzzi 10/2 has better spray performance for deeper cleaning. The 10/2 also benefits from on-board detergent storage and de-foamer tank to reduce foam build-up in the dirty tank.

		Puzzi 10/1	Puzzi 10/2
