- ▶ Pur-Eco is a solution of choice when combining performance, safety for the user and environmental responsibility.
- ▶ All products are packed in recyclable material.
- ▶ Diversey's expertise environmental commitment and certification against ISO 9001, ISO 14001 and the AISE Charter of Sustainable Cleaning provide further guarantee of quality and efficacy.
- ▶ All products are packed in recyclable material.

Product description

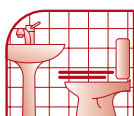

- ▶ Ready-to-use, heavy-duty cleaner for the effective removal of lime scale and other deposits from toilet bowls and urinals.
- ▶ Sani Clonet Pur-Eco has been formulated with a natural acid and a vegetable based polymer.
- ▶ Sani Clonet Pur-Eco fulfils the criteria of the EU "Flower" and Scandinavian "NordicSwan" eco-label schemes.

Key Properties

- ▶ Effective, fine blend of citric acid
- ▶ Ideal viscosity for optimal adhesion
- ▶ Angled neck bottle
- ▶ Unified fresh fragrance throughout the Pur-Eco range
- ▶ One fragrance for all Pur-Eco range

Benefits:

- ▶ Quickly dissolves calcium/lime deposits
- ▶ Long-lasting action on vertical/sloped surfaces
- ▶ Easily reaches hidden areas such as under the toilet rim
- ▶ Leaves a pleasant scent in all cleaned areas

Sani Clonet Pur-Eco

Use instructions

Dosage Proper dosage saves costs and minimises environmental impact. Product is ready to use. Apply undiluted.

Application

Manual: Flush the toilet/urinal and squirt the product under the rim, around the bowl, onto water/flush paths and water outlets. Lower water level using brush. Allow the product to act for 5-10 minutes, then scrub with a brush and flush to rinse. Increase contact action time in case of heavy calcium/lime build-up.

Important: Do not mix the product with chlorinated products and do not use on acid-sensitive surfaces (e.g. marble, enamel, grouting). Immediately remove any drops or splashes from acid-sensitive surfaces and rinse thoroughly with water. Can be used on intact porcelain and glazed sanitary installations. Test material compatibility before use.

Technical data

Appearance	Clear, red coloured liquid	pH-value neat	1.5 - 2.5
Relative density (20°C)	1.02		

The above data is typical of normal production and should not be taken as a specification.

Product	Pack size	Article code
Sani Clonet Pur-Eco	6x750ml	7515245
