MICROWAVE OVENS

SHARP

Big in Catering

From coffee shop or pub, to fine dining or event catering, quality, consistency and flexibility are vital. Sharp's extensive history in the manufacture of world class ovens has resulted in a comprehensive range of professional microwaves that cater for all these requirements and more.

As a market leader Sharp utilise innovative Japanese technology and build to ensure that whether for light or heavy duty our products are robust, reliable and easy to use.

Packed with convenient functions

Built to conform to the highest quality assurance standards, our heavy-duty ovens are equipped with twin stirrer fans to ensure even heating and perfect, consistent results every time. Variable controls give maximum cooking flexibility while our touch control models are equipped with a handy counter check feature – so that at the end of the working day it is easy to identify the most popular dishes.

With up to 11 power levels the Sharp commercial range offers essential cooking control. Expect consistent, quality results every time.

Big in features

Memory Programming & Express Defrost

On all Sharp touch control models, simply pre programme the most popular menus to be ready at the touch of a button. The new Sharp R1900M dual control model is designed with incredible flexibility in mind. Capable of programming up to 100 menus it will manage as many or as few menu options as required.

These models also incorporate Express Defrost technology, which automatically speeds up the defrosting process. This time and energy saving feature is perfect for a busy kitchen, working to ensure a fast and efficient service which removes the pressure from a busy kitchen team.

Durability and convenience

Stylishly designed and built- to last all our models are manufactured with high grade, rust resistant stainless steel, critical for surviving the wear and tear of everyday use, but still so simple to clean. All models can also be conveniently stacked two high, leaving crucial space for other food preparation applications.

■ R21ATP

MEDIUM DUTY 1000W COMMERCIAL OVEN

- 28 litre / 1.0 cubic foot capacity
- 11 power levels
- 20 programmable memory settings
- Extra menu feature
- Double quantity facility
- Express defrost technology
- Counter-check option
